Please note:

- This sample costing is indicative only and may not necessarily represent your cycle as each cycle is dependent on your medical history and how you respond to treatment
- \*PGS is optional and is only included here as it is commonly selected by our patients
- Sample Costing does not include the cost of procedures such as ICSI (£1,300) or growth hormone (£1,000-£1,500) which may be suggested by the doctor
- If you have previously had certain blood tests or semen analysis, you may not need to have those investigations repeated
