Please note:

- *This sample costing is indicative only and may not necessarily represent your cycle as each cycle is dependent on your medical history and how you respond to treatment. An individualised version of this costings letter will be created once a treatment plan has been finalised.*
- *This sample costing does not include the cost of procedures such as ICSI (£1,350) or growth hormone (£1,000-£1,500) which may be suggested by the doctor.*
- *If you have previously had certain blood tests, you may not need to have those investigations repeated.*
