Total estimated cost of sample FET	£2,445

**Medication estimations not included in totals*

Please note:

- *This sample costing is indicative only and may not necessarily represent your cycle as each cycle is dependent on your medical history and how you respond to treatment. An individualised version of this costings letter will be created once a treatment plan has been finalised.*
- *PGT-A is optional and is only included here as it is commonly selected by our patients.*
- *This sample costing does not include the cost of procedures such as ICSI (£1,350) or growth hormone (£1,000-£1,500) which may be suggested by the doctor.*
- *Storage of eggs, sperm or embryos is charged at £375 per year and is payable from the second year of the cryo-contract.*
- *If you have previously had certain blood tests, you may not need to have those investigations repeated.*
